Porcelain for metal ceramic dental restorations

Noritake Super Porcelain EX-3
For True-to-life result

MIMIC NATURE

A TECHNOLOGICAL MASTERPIECE THAT REFLECTS THE NATURALNESS OF DENTITION THROUGH YOUR HANDS.

Noritake Super Porcelain EX-3 is a high-quality porcelain system that was developed as a result of the extensive knowledge and ceramic technology of Kuraray Noritake Dental.

PRECISION OF THE NATURAL DENTITION

Kuraray Noritake Dental's shade concept creates an intra-oral harmony by diminishing the greenish color and adding a pinkish hue.

FLUORESCENCE CREATES THE NATURAL LOOK

Noritake Super Porcelain EX-3 features a clean fluorescent pale blue which creates the look of a natural tooth.
